Subject: Mental Health Webinar Series for Teachers

The United Nations Office on Drugs and Crime (UNODC), with support from the International Narcotics and Law Enforcement Affairs (INL), US State Department, is organizing a series of Psychosocial and Mental Health Webinars for teachers from January to March 2022. The Webinar series has the following objectives:

- 1) support teachers in understanding how prolonged fears could affect mental health and well-being;
- 2) provide them with techniques on how to create a work and life balance despite a challenging time; and;
- 3) equip them with the skills to help them identify and respond to early signs of stress and deterioration of mental health.

The launching of the webinar series is organized on 25 January 2022, at 02:00 PM, via an online platform. This initiative is part of the UNODC and INL collaborative support to mitigate the negative impact of COVID-19 in at-risk communities in the Philippines, including in the school setting. Some of the topics to be discussed are common issues in the workplace: stress, anxiety, depression, and burnout; "How do you know if you're still okay?"; and, red flags for needing professional help.

We are happy to extend this invitation to the Department of Education (DepEd). Interested participants may be able to register at the following link https://docs.google.com/forms/d/1YtT53W16_-GZmT6M1rgOarb19SO4nZc-HJPdMnS1DzE/edit.

We would also like to take this opportunity to request you to grace the occasion by giving an inspirational remarks during the launch of the activity.

Your positive response is very much appreciated.

Very truly yours,
