

SKILLS CHILDREN LEARN FROM THE ARTS

by:

Mary Grace B. Domingo

Teacher III, New San Jose Elementary School

What are the skills that ARTS develop in a child?

1. Creativity- Being suitable to suppose on their bases, approach tasks from a different person
4. Focus- The capability to concentrate is a key to developing through ensemble work.
5. Collaboration- Through trades, children exercise working together, participating in responsibility, and compromising with others to negotiate a common thing.
6. Responsibility – When children exercise creating commodities collaboratively, they get used to the idea that their conduct affects other people.

active, and suppose “outside of the box” will distinguish your child from the other. This creativity can be used in all aspects of their future career.

2. Confidence- This will help the children make the confidence they need to take command and perform in a large cult.
3. Problem Working-Cultural creations are born through the solving of problems. How do you turn complexion into a form? How to produce a delineation showing why the earth cries? Without indeed realizing it kiddies are constantly challenged to break problems.
