IV. POLICY STATEMENT

Section 3 of the Bayanihan 2 Act states that it is the policy of the State *to promote a just and dynamic social order that will ensure the prosperity and independence of the nation and free the people from poverty, particularly in the aftermath of natural and man-made disasters, through policies that provide adequate social services, and promote full employment, a rising standard of living, and an improved quality of life for all.*

To fulfill the goals of the law, this IG is governed by the following policies:

1. The BBE aims to provide subsidies and allowances to qualified students in private and public basic education schools whose families are now facing financial difficulties brought about by work stoppage and closure of establishments due to the CQ.
2. The BBE seeks to help students from families that are neither part of the *Listahanan* of the DSWD nor any government assistance program for students in private schools.
3. The education subsidies to be granted to qualified students shall be used to pay off unpaid tuition in SY 2019-2020 or for payment of tuition fee for SY 2020-2021 and shall be released directly to the private basic education schools in a manner similar to TES, ESC and SHS VP.
4. The subsidies to be given to qualified students shall be released directly to the private school where qualified students are enrolled.
5. The cash allowance for public basic education students shall be released through the Schools Division Offices (SDOs) using payroll or established payment procedures of DepEd.
6. The cash allowance for private basic education students shall be released to qualified students through the BBE Participating Schools.

DepEd considers the Basic Education-Learning Continuity Plan (BE-LCP) in formulating this IG, as the BE-LCP recognizes the challenges faced by our students to sustain or continue their education because of the COVID-19 pandemic. Latest figures show that while there are more or less 22.7 million students enrolled in our public basic education schools, around 400,000 of these students came from the private basic education. The same data shows that only 51% of enrollment last SY enrolled in our private basic education schools this SY 2020-2021.

In relation to DepEd's continuing efforts to look for our basic education learners who have not yet enrolled, it may be important to note that DepEd Order No. 03, s. 2018 allows the acceptance of late enrollees even if they shall not meet 80% of the prescribed number of days for the SY and the quarterly requirement to pass the grade level as governed by the existing DepEd applicable issuances, subject

1 to the sound discretion of the School Head, with the adoption of some catch-up
2 activities and interventions under acceptable circumstances.

3
4 It is hoped that the financial assistance program under Section 4(n) of RA No.
5 11494 shall also encourage all students who have not yet registered to now decide
6 to continue with their education by enrolling in the current SY whether in the
7 private or public schools' system.
8
9
