

## FOCUSING ON SKILLS

by:

**Maria Aiza A. Dela Cruz**

*Teacher III, Alikabok Elementary School*

Skills are very essential to acquire and these are vital in one's development and growth in school and in the outside world. These are the competencies that need to be given more focus on in order to attain one's progress and productivity.

**Interpersonal Skill.** This entails the ability to deal with others effectively. A teacher must possess this skill because most of the time he or she is facing and dealing with people like students, parents and other stakeholders.

**Critical thinking Skill.** This makes use of logical and correct thinking whenever something is met. This skill makes use more of reasoning and how it will extract the deeper meaning of things.

**Leadership Skill.** This pertains to how a person leads others or group of people and the ability to handle decision-making within the organization. Leadership skill should be acclimatized to people who want to serve people altruistically.

**Intrapersonal Skill.** This is also a useful skill because it develops the inner self of a person. It is searching for the real essence of one's life and determining his purpose in this world.

**Problem-solving Skill.** This skill is very significant in facing various problems whether in school or in the real world. It is needed in resolving problems and in finding better solutions to them.

Adaptive Thinking Skill. In this era of technology adaptive thinking skill is vital. This is the ability to cope with the latest technology and to assume innovative changes which are inherent in the modern evolution.

Communication Skill. This is very essential most especially in conveying messages to other people and in discussing with them on various matters. A person with communication is being understood easily.

Collaboration Skill. This is popular nowadays because it promotes the merging of ideas. A person should learn how to share and combine ideas and insights with other people around.

Inquiry Skill. The ability to ask questions sensibly is meaningful. Inquiry skill is very useful in investigating the truth and in finding relevant data.

Technology Skill. The use of modern technology is a must at present. People with this kind of skill are able to survive in work and are able to work efficiently.

These skills are very essential and people should be able to employ them in their lives in order to be successful in their jobs in school and in any kind of workplace.
