

## LEARNER'S EDUCATIONAL ACHIEVEMENTS

*by:*

**Maria Aiza A. Dela Cruz**

*Teacher III, Alikabok Elementary School*

The learner's educational achievement may be described in different ways. The most important point is that this describes the learner's range of learning in school that contributes to his holistic development and growth.

Educational achievements may refer to his performance outcomes. These are the academic accomplishments of the child whether in written or actual performance forms in school in different learning areas.

The attainment of the cognitive goals may also be related to the learner's educational achievements. Whenever a child attained and learned a specific cognitive goal then it adds up to his educational achievement.

There are different dimensions in multifaceted construct in education. If the child is able to excel in different dimensions in learning, then it means that he is able to show his educational achievement.

The learner's educational achievements are the general indicators of knowledge. This means that the child was able to acquire knowledge which are contributory to his development and growth.

The educational achievements of a learner are the reflections of his intellectual endeavors. Through hard work and diligence in studies, the learner was able to attain an achievement in his intellectual aspects.

As part of the distinctive achievement of the learner for having successful in education, scholastic standing may be a proof. This shows the stance of the individual in the class as reflected in grades and remarks.

The strengths of the learner are shown in his educational achievements in school. It means that whenever a learners performed successfully, his strengths are manifested.

The learner's proficiency and deeper understanding of things in school are also indicators of his educational achievements. The person's abilities to do thing and comprehend knowledge are indeed important.

Whenever a transfer of knowledge and skills transpired, educational achievement on the part of learner is evident. This means that the accumulation of competencies became successful.

Apparently, the educational achievements of a learner may be described in different ways.
