PROF. NANCY A. TANDANG SENOCAOMSER

DR. NICOLAS T. CAPULONG<br>Regional Director

Department of Education, Region III
Maimpis, City of San Fernando, Pampanga

Dear Dr. Capulong:

Greetings!

The UPLB Statistical Society (UPLB STATS) is a duly recognized academic organization in the University of the Philippines Los Baños. Since 1980, the organization has devoted itself to its goals of advancing and promoting proper application of statistics in all fields of learning endeavors. In recognition of its outstanding efforts and exemplary dedication to the successful conduct of various statistical advocacy activities for the youth, UPLB STATS was awarded as the Best Youth Group Advocate for Statistics during the $27^{1 \mathrm{~h}}$ and $28^{\mathrm{th}}$ National Statistics Month.

In light of this, one of the organization's annual activities is ESTADISTIKA- an invitational statistics quiz, poster making, essay writing, and photo contest for high school students. ESTADISTIKA aims to instill the significance of statistics among junior and senior high school students, to introduce the proper application of statistics in various disciphines, to stimulate interest in statistics, and to promote intellectual growth among the youth.

On its $14^{\text {th }}$ year, high schools from Luzon are invited to participate in ESTADISTIKA. With the theme, "Planting the Country's Future: Addressing Challenges in Agriculture through Quality Statistics", ESTADISTIKA 2020 will be held in the University of the Philippines Los Baños on 7 March 2020 (Saturday).

## ESTADISTIKA 2020

A LUZONWIDE INVITATIONAL STATISTICS GUI, ESSAY WRITING, POSTER MAKING AND PHOTO CONTEST

3 difloar. Physicd Sciences Butting
University of the Pltppines, Los Boños

In this regard, we are humbly requesting for the endorsement of ESTADISTIKA 2019 to the academic institutions in Region III. Attached herewith is a copy of the mechanics of the Statistics Quiz, Essay Writing, Poster Making and Photo contests. Should you have further inquiries, please do not hesitate to reach us through the contact information provided below or email us through estadistikastats@gmail.com.

John Jerwin L. Evardone ogo5-840-6978
Denise Julienne V. Guevarra 0995-938-3734
Your support to the success of this event is greatly appreciated. Thank you very much and we hope to get a favourable response from you soon.

Respectfully yours,

John Jerwin L. Evardone
Steering Committee Head

5. Probability and Probability Distributions
6. Random Variables
7. Sampling and Sampling Techniques

## QUIZ CONTEST PROPER

ELIMINATION ROUND
The ELIMINATION ROUND shall be held oll-stage and shall take in the form of a written exam.
All questions for uis rourti shall be of muitiple-choice type. The exam shal! last for exuctly one (1) hour
Participating students are requested to bring their own scientific calculator. Programmable alculators are not allowed. Only calculators used by the contestants.

Answer streets will be provided. Participants are allowed to bring scratch papers. However, the xam questionnaures car be used as seratch paper, and - Contestants who arrived late may still take the exam, but not time extension will be given.

## Manner of Scoring and Correction for the

Each question item shall ment two
Each question tant shall have an (2) points and each team shall have the overall team score by addmg the scores of the members.
The top fifteen (15) teams in the ELIMINATION ROUND shall qualify for the EXHIBITION ROUND.

- Qualifying teams shall be announced at the start of he EXHIBITION ROUND.
- In case of a tie for the fifteenth (15th) place, all cams vying for that place will automatically qualify to HIBITION ROUND.
- In case of a be for the top-scoring individual,號 held before the Exhibition Round. written exam shall be done until the tie is broken.

## EXHIBITION ROUND

- The EXHIBITION ROUND shall be held off-stag and shall be a quiz-bee type of competition.
- Each team will start from zero point.

General Mechanics

1. The competition is divided into three (3) phases: Easy, Average, and Diflicult Phases.
2. There will be a total of twenty-five (25) questions. The table below shows the number of questions pe round.

| ROUNDD | OPERATIONAL | TRIVIA | Total |
| :---: | :---: | :---: | :---: |
| Eisy | 9 | 2 | 11 |
| Alerage | 6 | 2 | 8 |
| Difficult | 4 | 2 | 6 |
| Toial | 19 | $\frac{6}{2}$ | $\frac{6}{25}$ |

- Trivia questions will be asked after the firs question, in the casy phase a qer the 4 th quer we 5 h average phase and after the 3 rd question in the dificull phase) and after the last question in the three phases Only the team(s) who answer(s) correctly in the operational question before the exhibition trivia question can answer an exhibition trivia question. Questions in any given phase may be of objective or free-response type.
- The time alloted to answer the questions will vary according to the difficulty of the question

ASY ROUND Ten (10) seconds
IFFICULT ROUND Sis (30) seconds
(90) seconds

Each question shall te read twice. Each team hall have a proctor who will provide the answer sheets and the seratuh papers. Thev are after the time limit of each question.

* Answers in the computational form ane no
howed (e.g. 3! should be writen as 6). Finad answers in fractional form should be expressed in the lowest term.
Intermediate values should not be rounded off Failure to do so will render a wrong answer.
thre table below shows the scoring system for the phases of the exhibition round.

| Eagy Phase |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| Operations Qurestion 10 items! | Abswer | Pis. | Erhibition <br> Trivia <br> Questron <br> (3 ifens) | Answer | PIs. |
|  | Correct | 5 |  | Correct | 5 |
|  | Wrong | -1 |  | Wrong | $\cdots$ |
|  | No. | 0 |  | No | - -1 |
| AVERAGE PHASE |  |  |  |  |  |
| Operational Question th ifenss | Abswer | Pts. | Exhibiriont Triva Question ( 3 fitems) | Answer | Prs. |
|  | Correct | , |  | Correct | 5 |
|  | Wrong | - -3 |  | Wroug | $-2$ |
|  | No | -1 |  | No | -1 |
| Difficita Phase |  |  |  |  |  |
| Operational Qhestion <br> (5 hems) | Answer | Pis. | $\begin{aligned} & \text { Exifibition } \\ & \text { Triva } \\ & \text { Question } \\ & \text { B items } \end{aligned}$ | Answer | Pts. |
|  | Coitect | 10 |  | Conect | 5 |
|  | Wrong | ${ }^{-3}$ |  | Wiong | -2 |
|  | No | - 3 |  | No | -1 |

- In between phases, there will be a ten-minute break for the update of the scores. At the end of the round, the cumulative score of each team will be computed
- The top four (4) teams in the EXHHBIIION ROUND based on their cumulative team scores during the Easy, Average, and Difficult Phases shall qualify for the FINAL ROUND. Qualifying teams shall be announced belore the start or the rinal Round. tiebreaker question will immediately ensue pace, a be "sudden death" in nature.

## FINAL ROUND

- The Final Round shall be held on-stage and shall be a board-work problem solving type of competition. - Finalists will be assigned to wrte on a white board before the live audience on-stage, which will act as their solving area.
- All the qualifying teams are required to present their solutions completely, neatly, and orderly. answer. The members of the team wre required to bos answer. The member - Just before readi
given their own copy the question, each team will be * All questions will immediately proced and will be sudden death/knock-out in nature. A maximum of 30 to 90 seconds will be given to the finalists to answer each problem
- The teams will only be allowed to write on the board after the first reading. Failure to follow this wil disqualify the team from answering the question. The - Answers in the computational forming

Allowed (e o 3 , should be written as form are no in fractional form should be expressed in the lowest term.

- Intermediate values should not be rounded off Failure to do so will render a wrong answer.

Mechanics for Sudden death/Knock-out Procedure:
Cage 1: All teams got the corrett answer. - All teams shall proced to the next question Case 2: Three teams got the correct answer. - Thinee leans shat presers io the liext questimi. - The team who got atimatly be climinated anter wil procature).

## procelure). <br> - The two leams gat the correct answer.

 proced to the next oucstion and sholl compere for the fiss place.- The losing team shall take the second place, thus, the reanaining two othos twins will be given olhur question(s) to compete for the thind place (apply gencral procedure).
Case 4: Only one team got the correct answer
The team who got the correct answer will automatically be declared as the champion.
2nd and 3 rd place (apply geveral promedure).
Case 5: No teningot the correct anmer. - Anodicr question will be given (apply general pnucediere).
The lone standing team who gave the last correct answer will be declared as the Grand Champion. The second from the last team who unshered wroctly will be haild es the Firmt Rumar-up Winner.
The third from the last that had a positive anyantage will be proclainted as the Secand Runnerup Winner.

## PROTEST MECHANICS

- Onfy members of the team or thefr coach/adviser call raise a prolest to be forvarden to he Borad of Judges.
During the protest, the participant has the privilege of consulting any reterence, provided they are felevant to the subjeel of the prolest.
- Protests regerding ti question will be tackled ouly before the nest guestion is rad. No complaints on a previons quaster starts reading the next questicm.
*The decision of the Board of Judges is final and irrerocable.
