

LOVE FOR READING: A STEP WORTH NOTING

by:

Elaine Hope S. Juanerio
Limay Elementary School

Books will always be my best friend. I can't imagine myself without them.....
As Dr. Seuss quoted: "The more that you read, the more things you will know. The more that you learn, the more places you'll go."

Despite the pandemic that we are facing, a better future is still along the way. Do you want to know the secret? Love can be expressed in many ways. But as for me, one way of expressing love is through reading. Love for reading is one of the keys to a successful and better future. I can still remember when we were kids, I and my twin sister were fond of reading. As we both grow older, the love for books gets deeper...the love for reading gets stronger. The passion for reading still remained in my heart even if my twin sister died at an early age. My love for reading didn't end since that heartbreaking part of my life happened.

When you read, always read with love. When we read, we are firing up our imagination and stimulate our minds as well as our emotions. Reading really seemed very important for so many reasons. There were many intelligent people who have struggled with reading but they have learned to read easily and quickly. With reading, we can go anywhere in the world...or even out of it!... The possibilities are endless. So why not go for this kind of experience? Reading can lead us to places we never imagine. Instilling the love of reading can expand our vocabulary and build our independence and self-confidence.

Are you not excited about having an adventure without leaving your home? Are you not thrilled and delighted in travelling back in time or forward or even travel to a

new world and take on a new journey? As you read with love, books show us a new perspective and challenge us even more. We also learn to appreciate new things in life as we develop a love for reading. There are so many great and good books so why not be inspired and develop passion in reading one of them? Let us all together grow our love for reading and surely this will lead us to make a big difference that is really worth noting.

So, what are we waiting for? Let's turn love for reading into a habit!
