

DUALTECH: DUAL ADVANTAGE

by:

Ador Salvador Cruz

Master Teacher I, Alternative Learning System

“Earning while learning”. This is the Dualtech advantage!

Dualtech Center pioneered Dual Training System in the country. In the year 1992, the center was established, adapting the German model, where the school and industry train learners in real-life work experience: on-the-job training earning with allowances. At present, they have more than 12,000 graduates that have become leaders and managers in various sectors here and abroad in the industry of fabrication, manufacturing to packaging, aviation maintenance, metal works, automotive, electronics, semiconductors, information technology, robotics, food equipment to simple printing and many more. This a great opportunity for the youth to take part and get the advantage.

Spearheaded by the Schools Division Superintendent of Bataan, Dr. Roland M. Fronda with no less than 120 carefully selected delegates went to Dualtech Training Center Foundation, Inc. in Canlubang, Calamba, Laguna for the colloquium of the course DUALTECH 101: Work-Life Effectiveness Program. Oriented with the importance of this institution and program for the youth - giving education and eventual job employment opportunities.

Dualtech course: Electromechanic Technology, a two-year technical course -a combination of electrical, electronics, mechanical, automation/robotics technology, academic subjects with emphasis on work values and most importantly focused on integral human development. Mentors conduct regular life-coaching sessions with every learner.

The first 6 months will be spent in school and for the remaining 18 months learners will be in in-plant training. Honing students involves 1 day in school and 5 days in the factory. But that's not all, Dualtech is a center of values and virtues at work. They have their in-house Chaplain, just ask for an appointment for the various spiritual activities - yes aside from their skills training they have their spiritual enhancement program that produces a total package worker where the character is engraved in the hearts and minds of the Dualtech scholars. Their mantra is to build, create, survive, and excel!

Every institution must have funds and financial stability for its sustainability and functionality. In relation to this, upon enrolment a scholar must have:

- Medical Examination 280php

- 2pcs Uniform 640php
During In-School Training (6 months)
- Boarding House Rental 1,000php per month
- Electric and Water Bills 200php - 300php per month
Meals can buy their own or they can cook.
- Cafeteria's Student Meal is at 50php with 1 cup rice and 1 viand

Tuition Contribution for 2 years

30,000.00php (cash or within 6 months payment)

31,500.00php (if allowance deduction)

Allowance

Monthly Allowance (P6,600.00 to P9,400.00)

Computation of Allowance Deduction

P6,600.00 monthly allowance
- P1,750.00 monthly deduction
P4,850.00 net monthly allowance

P9,400.00 monthly allowance
- P1,750.00 monthly deduction
P7,650.00 net monthly allowance

Not convinced yet? Dualtech is partnered with over 100 high-profile manufacturing and service companies that accommodate their scholars and later be hired by the same company. From apprenticeship to a regular employee. Who are the qualified scholars?

Scholars must be:

- Male and single
- Finished Junior High School (Grade 10), ALS Junior High Graduate
- Preferably 18 - 22 years old
- Physically fit
- Non-smoker, no ear-body-piercing, no tattoo

If you have big dreams, fulfill them through the dual advantage. Enroll now and be a part of a very promising future and amazing life transformation. Take the Dualtech advantage!
