

TEACHING LEARNERS HOW TO BE COOL IN SCHOOL

by:

Jessica T. Angeles

Teacher III, Kabalutan Elementary School

School is our second home. It is an educational institution organized to provide learning spaces and a learning environment for the teaching of students under the guidance of teachers. There's a saying, "Your school is the best years of your life". My school-day memories put a smile on my face every time I remember it. I like going to my school because I can learn a lot of new things and play with my classmates and teachers every day. I learned how to identify letters, numbers, and shapes at school. I tell the names of the numbers and the word, I can answer and solve the problems. I can read words, construct sentences, and paragraphs. My school days are full of fun, even though it includes hard exercise, activities, and testing. I have gained more knowledge from all my teachers. Not only the knowledge or learning that I can get from school, I have new friends, new friends who have a lot of good memories. I enjoyed playing games, singing a song with them, having lunch, having a picnic together, and having fun with our teachers.

School is really cool to me. You can get a lot of information about it all. You started to think about your life in the future. School helps us to be a good, well-educated person.

C - Choose to be happy every day: Start the day by doing something you really like, like sharing your happy thoughts with your classmates and your teachers. Be positive even though you've got problems you're having.

O-Observe a good relationship with the co-workers: Accept the uniqueness of others as well. Celebrate your differences. Learn how to give and take feedback. Develop your empathy.

O-Offer a helping hand and work together: Helping to make work easier together. Collaboration with fellow students increases motivation and encourages students to take responsibility for their own and peer learning.

L-Love each other as brothers and sisters: You treat your classmates as brothers and sisters, because your school is your second home. Your teacher is the second parent of you. You can build a happy family in school.
