Dear Mr./Ms./Mrs. Fronda:

Greetings!

The UP Cell Biological Society (UP Cells) is an organization formed of Biology students at the University of the Philippines Los Baños. Since its start in 1990, UP Cells has been a home in fostering committed and talented young scholars.

Upholding its principles, the organization annually initiates the SIHAY National Biology Olympiad (SIHAY NBO), which brings High School students across the nation together through Biology. The current healthcare crisis is subsiding as of the moment, however the risks are still persisting. Therefore, the SIHAY's 25th year takes over the virtual domain through SIHAY.plugged, with the theme, Fluidic Frontier: Navigating the Science of Microfluidic Transformation. The event will transpire from April 29 - May 1, 2023.

In light of this, the UP Cell Biological Society would like to ask for your endorsement of SIHAY.plugged 2023. An endorsement from your good office would greatly help in boosting the attendance for the success of the event. Please see the attached link and files for the details of the said event.

We positively await your response as we recognize how crucial the proficiency of your institution in making this event succeed. Thank you very much!

Scientia et Virtus!
