7. Each participant must have paper, a pen, and a calculator for solving.
 8. Each participant will start with a zero score at the start of Easy Level. The Final Score for the Final Ranking will be based on the accumulation of points throughout the quiz bee (Preliminary plus the Final Round scores).
 9. All participants will have to wait for the signal from the Quiz Master before answering the questions.
 10. Questions and protests from participants regarding the answer to the items will be entertained before the start of the next level. If a protest occurs, participants may address their concerns to the Quiz Master, who will convey them to the Board of Judges. The Board of Judges' decision is always final.
 11. In case of a tie for the top 8 places, the tie will be broken through their score in Preliminary Round. The one who got the higher score will get the higher place. If they are still tied in the scores for the Preliminary Round, then the tie will be broken by the score in Final Round. If still, the tie is not broken, then a do-or-die question will be given. The first contestant who raises the correct answer to the board of judges will be considered the winner. The do-or-die question is not a multiple-choice question.
