Greetings and good day!

F & J de Jesus, Inc., exclusive distributor of Learning A-Z literacy and English language online platforms, would like to invite you and other interested stakeholders, particularly Reading, Literacy, and English Language Arts teachers and administrators, to register and participate in a complimentary webinar on the development of literacy skills through the principles of The Science of Reading.

Please see the webinar description below and link to the Registration page.

We look forward to your favorable consideration and eventual participation in this event.

Thank you very much.

Respectfully yours,

Gladys Golpeo- Hugo
Program Trainer

The Reading Rope

Modified from Scarborough, H. S. (2001). Connecting early language and literacy to later reading (dis)abilities: Evidence, theory, and practice. In S. Neuman & D. Dickinson (Eds.), Handbook for research in early literacy. New York, NY: Guilford Press

As an educator, you know that reading is one of the most critical skills that students need to develop. That's why Learning A-Z is excited to invite you to our upcoming Zoom webinar on building strong reading skills.

Our International Academic Manager will guide you through the key components of reading, including **phonological awareness, phonics, fluency, vocabulary, and comprehension**. You will gain valuable insights into how to support learners, including struggling readers, in developing strong reading skills.

During the webinar, we'll share practical tips and strategies for incorporating these elements into your daily reading instruction. You'll leave with valuable tools to help your students become successful readers.

This is a must-attend event for any educator looking to deepen their understanding of reading instruction.
