

UNLEASH THE TEACHER IN YOU

by:

Norilyn S. Gonzales

Teacher III, Banawang Elementary School

Teachers play a vital role in every person's life. They help shape young minds to become the person they wish they'd be in the future. Discovering one's potential as a teacher involves a process of self-reflection, exploration, and observation.

Here are some steps you can take to explore your potential as a teacher:

1. Identify your passions and interests.

Think about what you enjoy doing and what you are passionate about. Teaching is a demanding and challenging profession, and it requires a lot of energy and dedication. You'll be more likely to thrive as a teacher if you are genuinely interested in the subject matter and are passionate about helping others learn.

2. Reflect on your skills and strengths. Consider your strengths, skills, and experiences. What skills do you have that could be useful in a teaching role? For example, if you are good at public speaking, you might be a natural at delivering engaging lessons. If you are organized and detail-oriented, you might be able to manage a classroom effectively.

3. Observe other teachers. Spend some time observing other teachers in action. Attend classes, observe teaching styles and techniques, and take notes on what works and what doesn't. This can give you a better sense of what teaching involves and help you determine whether it's a good fit for you.

4. Talk to experienced teachers. Reach out to experienced teachers and ask them about their experiences. Ask them about the challenges they've faced, what they enjoy about teaching, and what advice they have for someone just starting out.

5. Try teaching. Finally, consider volunteering or getting some teaching experience to see if it's something you enjoy. You could tutor a student, lead a workshop, or volunteer at a local school. This can help you gain valuable experience and get a better sense of whether teaching is a good fit for you.

Remember that teaching is a challenging profession that requires a lot of hard work and dedication. However, if you are passionate about helping others learn, have the necessary skills, and enjoy teaching, it can be a rewarding and fulfilling career choice.
