It is a challenge on how we can be of help among our colleagues who have lagging behind reported pupils. In order to address lagging behind pupils let us try to use and apply Project Gabay. This project which stands for Getting to know the pupils' background, such as name, address. Age, parents, occupation and siblings. Addressing the issue by communicating to teacher, parents and pupils. Best INTERVENTION be given. Sharing of intervention might be of help. Assists the teacher in giving intervention to pupil. Yes to monitoring and follow up.

The difficulties that every teacher encountered especially those who have syllabic readers or pupils who are non - reader at all are facing greater challenge and should think of interventions that will cure the problem. Often times difficulty in reading can be attributed to the primary level of preparedness. Wherein learners at primary level should be given more time in reading rather than other subjects areas . The concentration in this level which is consider as the foundation stage is very crucial wherein the attitude of the learner should also be considered as well as understand. Learners at these stage ages 5 to 6 for that stage the interest span of the learner is too short. A creative and patience teacher at this stage is really a big factor.

Sharing of ideas by highly proficient teachers is a good idea that will be done through coaching and mentoring during learning action cell sessions. Continuous monitoring of the intervention will be of great help and will give better results to discuss and to study. Crafting of interventions as “ capsule “ for learning difficulties would probably the solutions of every teachers . Thus, interventions undergo research in order

to prove its validity is suggested. Having struggling learners really is a challenge among teachers. Let us not close the door among these learners for they are really in need of our help.
