Subject: **Letter of Intent**

Dear Ma'am Carolina,

We are writing to express our intent to conduct an Electronics Engineering (ECE) talk at your esteemed institution.

The talk we propose to conduct is entitled "ECE Talk", and is designed to provide students with an understanding of ECE (Electronics Engineer) as a profession. We believe that "ECE Talk" will be beneficial for the students, as it will serve as their guidance in their future careers.

The talk will cover the following topics:

1. What are the expectations and learning you will have when you enroll with ECE as your course?
2. What are the opportunities & jobs available that ECEs will have after graduation?
3. What are the fields of electronics engineering you can focus on and become the core of your expertise?
4. How to upgrade and boost your technical expertise?

We propose to conduct the talk on January 18, 2025, from 1:00 PM to 3:00 PM (GMT +8 Philippine Standard Time). The duration of the talk will be approximately 2 hours, including a question-and-answer session at the end.

We are confident that this talk will provide valuable insights and knowledge to the students, enhancing their understanding of ECE. We look forward to the opportunity to share our expertise and interact with the bright minds at your institution.

Please feel free to contact us at governor@iecep.ae and vgeducation@iecep.ae if you need more information or have any questions. We are looking forward to your positive response.

Thank you for considering my proposal.

Respectfully yours,
