

READING INTERVENTION :PATHWAYS TO ACADEMIC GROWTH

by:

RIZA R.MACALINAO

Teacher III, Sta. Rosa Elementary School

Providing activities to improve the reading skills for struggling learners and to foster academic success and giving techniques lead to understanding and analyse academic text effectively to help the struggling learners with reading difficulties uses different approaches focusing on targeted strategies and support. Most of the interventions include building and enhancing vocabulary ,phonics, reading techniques and providing assistive technology like Designing reading materials with the use of Canva using reading experience and engaging innovative materials like Canva to integrate technology and design effective reading materials that can captured the interest of learners of 21st century learners and it aims to used friendly tool design Reading intervention: Pathways to Academic Growth Providing activities to improve the reading skills for struggling learners and to foster academic success and giving techniques lead to understanding and analyse academic text effectively to help the struggling learners with reading difficulties uses different approaches focusing on targeted strategies and support.

Most of the interventions include building and enhancing vocabulary ,phonics, reading techniques and providing assistive technology like Designing reading materials with the use of Canva using reading experience and engaging innovative materials like Canva to integrate technology and design effective reading materials that can captured the interest of learners of 21st century learners and it aims to used friendly tool design with the educational materials like story circle, digital posters ,mini blocks . In order to support children's reading development make it a daily habit like giving a comfortable reading space ,encourage them to reconnect to real life experience and make it a part of their daily routine In this intervention that successfully merge technology with literacy

and empowered both students and teachers to become creative .Parents and teachers were able to encourage and support the children by allocating quite reading time and provide academic growth that focusing on learners development in terms of reading with comprehension . with the educational materials like story circle, digital posters ,mini blocks .In this intervention that successfully merge technology with literacy and empowered both students and teachers to become creative .Parents and teachers were able to encourage and support the children by allocating quite reading time and provide academic growth that focusing on learners development in terms of reading with comprehension .

The effectiveness of customized literacy initiatives emphasizes the necessity of ongoing funding for teacher preparation and customized learning resources. In addition to making sure that teachers have the information and abilities necessary to plan and carry out individualized education, schools must place a high priority on integrating adaptive learning technologies. Strategies for customizing education, making efficient use of technology, and attending to the particular needs of various learners should be the main topics of professional development programs. Additionally, regulatory changes are urgently needed to support district and local customized literacy programs. Policies should provide fair access to individualized learning technology, particularly in underprivileged communities, and encourage funding for training and resources.
