The researchers from the Psychological Studies Research Interest Group of the Research Center for Social Sciences and Education (RCSSED) of the University of Santo Tomas are currently undertaking a series of studies focusing on well-being and psychological functioning of Filipino public school teachers. These studies aim to contribute a deeper, evidence-based understanding of the challenges and strengths that shape the professional and emotional lives of public-school teachers.

In line with this, all DepEd **teaching personnel** are invited to participate in the data-gathering activities by accomplishing the online survey forms starting November 24. For reference, below are the studies and the corresponding survey questionnaire links:
