##### **D.1.1 Meritorious Award**

Being a teacher is one of the noble vocations anyone can ever have. Teachers do more than educate the youth; they contribute significantly to the process of a person's becoming. More than facts and concepts, principles are also often instilled in their students.

In addition, professional standards in the continued professional development and advancement of teachers based on the principle of lifelong learning is one of the main goals of the Department of Education. The quality of learning depends on the quality of education. Thus, teacher recognition builds and gives hope for meaningful quality education and has the effect of improving student learning outcomes. It also brings pride and support to students by teachers, administrators, and the community.

Moreover, significant contributions of non-teaching personnel in achieving excellence, hence, promoting a positive school climate with their dedication, commitment to the service, and unwavering support as effective partners also help to rebuild the true path of personal growth and development in life of the learners thus non-teaching recognition also gives an inspiration to do the task with dedication.
