

ARAL READING PROGRAM ENHANCING LITERACY SKILLS

by:

Omar M. Gallego

Teacher III, Pilar Elementary School

Reading is a fundamental skill that serves as a foundation of learning across all subject areas. It aims to help struggling and non-readers. Learners develop basic reading skills that structured systematic and engaging reading activities. It focuses on phonemic awareness, word recognition, fluency, vocabulary development and reading comprehension.

Reading program implemented by the aral tutors as well as their parents to address the difficulties and enhance comprehension skills among learners. It focuses on helping non-readers or struggling readers and beginning readers to improve their reading skills and performance. Confidence and participation in class activities was observed to those learners. It notices positive result, most of the struggling learners improved their reading fluency and comprehension. It also help the learners to conduct the said remediation program because of the tools that can be use like workbook and teachers guide all were provided so conducting regular reading session using the strategies as guided reading, one on one instruction, peer reading and interactive storytelling become a great help. During pre implementation stage assessment tools was use like aral reading record checklist and aral reading materials. The aral tutors conduct an orientation base from the word recognition and oral passages.

The school ensure that every learners become a reader and no one left behind because of the program.
