ADVISORY

**TO : ALL MEDICAL OFFICERS, NURSES, AND TEACHERS FROM
ALL DEPED SCHOOLS DIVISION OFFICES IN CENTRAL
LUZON**

FROM : CORAZON L. FLORES, MD, MPH, CESO III
Director-IV

**SUBJECT : Rainy Season Preparedness for Schools: Prevention and Control of
Food and Waterborne Diseases (Online)**

BY: _____

The rainy season in the Philippines is frequently associated with an increased risk of food and waterborne diseases (FWBDs) due to flooding, contamination of water sources, inadequate sanitation, and improper food handling practices. Schools are particularly vulnerable during this period, as disruptions in water supply, sanitation facilities, and food safety practices may increase the risk of disease transmission among learners and school personnel.

To prevent and mitigate the occurrence of food and waterborne diseases in schools, all concerned personnel are encouraged to participate in the upcoming webinar entitled "**Rainy Season Preparedness for Schools: Prevention and Control of Food and Waterborne Diseases.**" The webinar aims to enhance awareness and strengthen the capacity of school personnel in implementing preventive measures, promoting safe hygiene and sanitation practices, and ensuring food and water safety during the rainy season. The webinar is scheduled to take place on **July 13, 2026 via Cisco Webex.**

With this, participants may join the activity through the following:

Webex Link: bit.ly/FWBDRainySchoolPrep

Webex Event Number: **2516 040 5411**
